BRING CPAP THERAPY
DOWN TO SIZE.

INTRODUCING THE GOODKNIGHT® 420

CPAP System from Puritan Bennett.

PURITAN
BENNETT

NOW CPAP THERAPY IS SMALLER AND LIGHTER THAN EVER.

The uniquely small *GoodKnight® 420* CPAP System is sure to be a big hit with sleep apnea patients. The compact *GoodKnight 420* device is barely noticeable at the bedside and easy to pack for travel. Yet it delivers full-size CPAP performance for a wide range of prescriptions.

The smallest system makes
the biggest difference.

- Compliance will be easier than ever when patients are introduced to the smallest, lightest CPAP system on the market.

CPAP on the go.

- Weighing only 1 1/2 pounds, the *GoodKnight 420* units are ideal for travel, so therapy can continue wherever patients go.

Silent nights.

- The patented turbine-based blower enables whisper-quiet operation so patients and sleeping partners can enjoy a peaceful night's sleep.

COMPATIBLE WITH COMFORT.

Puritan Bennett's proven CPAP interface technology includes the *Breeze SleepGear™* and *ADAM™* Interface Systems. Both interfaces deliver unsurpassed comfort and freedom of movement, and allow patients to use innovative Nasal Pillows.

- Patients report better sleep quality, less air leak and greater overall satisfaction with Puritan Bennett Nasal Pillows, compared with nasal masks.¹

¹ Massie CA, Hart RW. *Chest*. 2003;123:1112-1118.

Breeze SleepGear
with Nasal Pillows

GoodKnight 420G
Entry-Level Model

GoodKnight 420S
With Compliance Tracking

GoodKnight 420E
Auto-CPAP

The 420S and 420E measure pressure at the mask rather than the device, for a precise measurement and better comfort.

BRING CPAP THERAPY DOWN TO SIZE FOR OSA PATIENTS.
